

RESEARCH INTERN

Full-Time Summer Internship
Term: May 6th 2019 - August 23rd 2019

Our future depends on a more conscious form of capitalism – one in which business plays a critical role in overcoming social challenges sustainably, and at scale, and in which entrepreneurs “do good” and “do well”.

Good & Well is a boutique impact investing firm based in Toronto, Canada that partners with early-stage social purpose businesses to help drive a more conscious form of capitalism and a more purposeful, sustainable economy for all.

We believe that a new investment mindset is needed to drive this new economy – one with mission alignment, longer time horizons and a commitment to safeguarding purpose as companies grow. We're working to realize this future by investing in the early-stage, over the long term, and in entrepreneurs who are committed to creating a more fair, prosperous and sustainable world.

Good & Well is seeking a **Research Intern** to assist in new deal evaluation, to research and develop partnerships in the social impact sector, to research and develop grant proposals for portfolio companies, and to support the growth of our portfolio companies by conducting research for them as needed.

As a part of this internship, the successful applicant will also participate in workshops, networking sessions, and Lunch & Learns alongside interns from social-purpose companies within our portfolio.

This position is partially funded by the United Nations Association of Canada through the [Green Spaces Program](http://unac.org/green-spaces/) <<http://unac.org/green-spaces/>>, which is supported by the Government of Canada as a part of the Youth Employment Strategy.
